

The Perfect Fit for Slim Aluminium Doors

Two new lever handle designs on ultra slimline backplate

COASTAL

Shaping the future.

The aluminium door market is demanding slimmer, more refined profiles, and now your hardware can keep pace. The 096 Slimline Backplate range has been designed for today's narrow aluminium frames, combining sleek styling with unbeatable corrosion resistance.

Two stylish lever designs

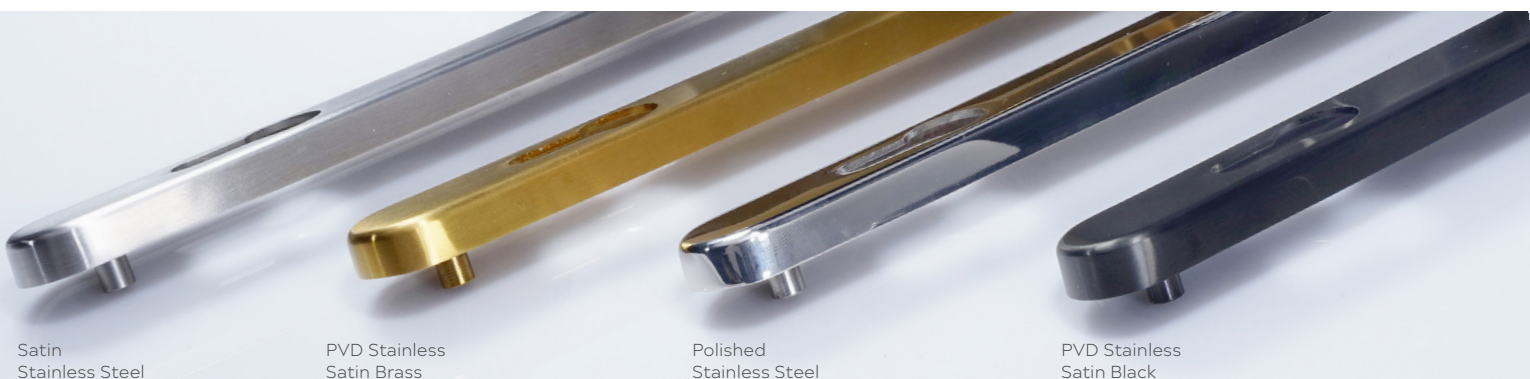

26mm width backplate

Single plate system

- **Slim profile:** Backplate just 26mm wide, perfect for modern, narrow aluminium frames.
- **Corrosion-proof:** Made from solid 316 marine grade stainless steel, giving lifetime protection against rust, even in coastal or industrial environments.
- **Choice of design:** Two stylish lever designs, with more in development
- **Peace of mind:** Built to last, with a lifetime guarantee.
- **Easy maintenance:** Single plate system with no cover plates, making them quick to remove if required.

Two Lever Designs. One Perfect Fit.

AMLO96

Angled Mitre Lever on Slimline Backplate

Modern, architectural styling with crisp angles and a confident, premium feel. Perfect for contemporary aluminium doors.

EGC096

Ergonomic Lever on Slimline Backplate

A smooth, gently curved lever that feels as good as it looks, offering a comfortable grip.

Shared Features:

- 316 marine grade stainless steel with lifetime guarantee (including fixings)
- Offset lever design to avoid clashing with door frames
- Smooth spring action for a solid, premium feel
- Decorative visible fixings for quick, simple installation
- Balanced between price and quality, making it the easy choice for volume projects
- Available in four premium finishes.

The 096 Slimline range of lever handles from Coastal Group has been engineered for ease of ordering, fitting and stocking. These handles are ideal for volume aluminium door projects and offer the premium quality your customers expect.

Ordering Information:

- **Levers Available:** Mitre AML096 and Ergonomic EGC096
- **Finish:** Four premium finishes
- **Material:** Solid 316 marine grade stainless steel
- **Backplate Width:** 26mm
- **Suitable for:** Multipoint locking systems

Order today and give your customers the handle their aluminium doors deserve.
