

CARE AND MAINTENANCE GUIDE

BLU™ 316 POLISHED STAINLESS STEEL (PSS) HARDWARE

LIT-CMG-BLU-PSS

To help you care for the BLU™ Polished Stainless Steel (PSS) product range please follow the guidelines below.

During installation and whilst building work is being carried out the hardware should be covered to protect it from dust, dirt and scratching.

Immediately after fitting and installation

- Product should be cleaned using a soft cloth and mild soapy water then dried immediately with a clean, soft cloth.

Monthly Care and Maintenance

- Clean regularly with a soft, dry cloth or duster.
- Rubbing or wiping should be carried out in the direction of the polish/finishing lines, not across them.
- Product should be washed monthly using a soft cloth and mild soapy water then dried immediately with a clean, soft cloth - especially if fitted on or near the coast.
- Fingerprints can be removed by washing product as above.

Six Monthly Care and Maintenance

- Product should be cleaned at least every six months using our DR121 Stainless Steel Renovation Kit, following instructions for use on the DR121 bottle.
- Lubricate any moving parts with a suitable PTFE Grease such as GLS200.
- DR121 Stainless Steel Renovation Kit and GLS200 are available from www.coastal-group.com.

Please Note

- DO NOT use the the white (scrubbing) side of the sponge supplied with the DR121 kit.
- DO NOT use oily rags or greasy cloths when wiping the product surface.
- DO NOT use bleach, abrasive cleaners, caustic or acid based cleaning materials, or detergents containing chloride, or any other strong household cleaning products.
- DO NOT use abrasive materials, files or other hard objects against the product surface.
- This product should be protected from dust and dirt during any construction work.
