

# CARE AND MAINTENANCE GUIDE

## BLU™ 316 SATIN STAINLESS STEEL (SSS) HARDWARE

---

LIT-CMG-BLU-SSS

To help you care for the BLU™ Satin Stainless Steel (SSS) product range please follow the guidelines below.

**During installation and whilst building work is being carried out the hardware should be covered to protect it from dust, dirt and scratching.**

### Immediately after fitting and installation

- Product should be cleaned using a soft cloth and mild soapy water then dried immediately with a clean, soft cloth.

### Monthly Care and Maintenance

- Clean regularly with a soft, dry cloth or duster.
- Rubbing or wiping should be carried out in the direction of the brush or polish lines, not across them.
- Product should be washed monthly using a soft cloth and mild soapy water then dried immediately with a clean, soft cloth - especially if fitted on or near the coast.
- Fingerprints can be removed by washing product as above.

### Six Monthly Care and Maintenance

- Product should be cleaned at least every six months using our DR121 Stainless Steel Renovation Kit, following instructions for use on the DR121 bottle.
- Lubricate any moving parts with a suitable PTFE Grease such as GLS200.
- DR121 Stainless Steel Renovation Kit and GLs200 are available from [www.coastal-group.com](http://www.coastal-group.com).

### Please Note

- DO NOT use oily rags or greasy cloths when wiping the product surface.
- DO NOT use bleach, abrasive cleaners, caustic or acid based cleaning materials, or detergents containing chloride, or any other strong household cleaning products.
- DO NOT use abrasive materials, files or other hard objects against the product surface.
- This product should be protected from dust and dirt during any construction work.

**COASTAL**

*Shaping the future.*
