## EURO PROFILE CYLINDER

### Euro Profile Cylinder Measuring Size Guides

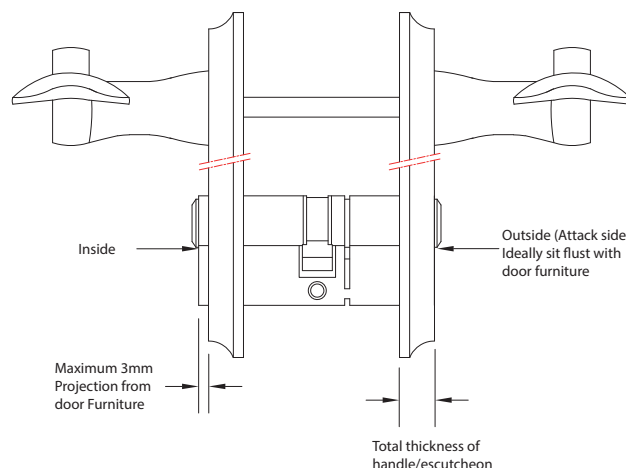

LIT-PHD-EPC

Key / Key Cylinder

Key / Thumbturn Cylinder

*Note: When fitting cylinder into position do not overtighten the fixing screw as this could bend the cylinder and prevent it from operating correctly*

Measurement of **A + B** should always = **C** (3 star cylinder shown in diagram above)

Our cylinder part numbers explained (*when ordering cylinders we always state the 'Attack/Outside' side first*):

Example: **KPD4535-KTD-NK** - **KPD** (Double Cylinder) - **45** (Outside/Attack Side) - **35** (Inside) - **KTD** (Keyed To Differ) - **NK** (Nickel Finish)

Example: **KPT3545-RKA-SB** - **KPT** (Thumb Turn Cylinder) - **35** (Outside/Attack Side Key) - **45** (Inside Thumb Turn) - **RKA** (Random Keyed Alike) - **SB** (Satin Brass)

# CYLINDER SIZING GUIDE FOR SINGLE & DOUBLE HANDLE DOORS

LIT-PHD-EPC

Single Door or Double Doors with Single Handle (SOLO) - measured central to door thickness  
Double Doors with Double Handles (KLONE) - measured from 22mm centre line

## Based on 56mm Door Thickness for SOLO Multipoint Lock

Handle/Escutcheon Total Thickness	Cylinder Size
1-7mm	35/35
8-12mm	40/40
13-17mm	45/45

## Based on 58mm Door Thickness for SOLO Multipoint Lock

Handle/Escutcheon Total Thickness	Cylinder Size
1-6mm	35/35
7-11mm	40/40
12-16mm	45/45

## Based on 56mm Door Thickness - Open In Double Doors - KLONE

Handle/Escutcheon Total Thickness	Cylinder Size
3-6mm	40/35
7-11mm	45/35
11-13mm	50/35

## Based on 56mm Door Thickness - Open Out Double Doors - KLONE

Handle/Escutcheon Total Thickness	Cylinder Size
3-6mm	35/40
7-11mm	35/45
11-13mm	35/50

## Based on 58mm Door Thickness - Open In Double Doors - KLONE

Handle/Escutcheon Total Thickness	Cylinder Size
3-4mm	35/40
5-9mm	35/45
10-12mm	35/50
13-14mm	40/50
