

CASEMENT WINDOW HARDWARE HANDING ON A TILT & TURN WINDOW SASH

How to work out the handing on a Tilt & Turn Window Sash

Outside the Property

Inside the Property

Right Hand Master Tilt & Turn Sash Left Hand Turn Only Slave Sash shown above

We always view our Tilt & Turn Windows from the 'Inside' of the property, this is due to how this particular type of hardware is supplied.

The window drawn above is a 'Right Hand' Tilt & Turn Master Sash Window with a Turn Only Slave Sash as the points of the red arrow point to the 'hinged side'.

Tilt only function can be achieved on single sashes if required.
