REGENT

LEVER DOOR HANDLE ON BEVELLED BACKPLATE

- Upgraded design – slimmer, taller backplate and fully sprung with a custom-made dual spring cassette for smooth operation.
- Elegant, ergonomic shape – inspired by the smooth lines of an oar, the wave-like curve of the lever handle leaves a great impression.
- Built to last – CNC machined, crafted from recycled forged brass and built in the UK.
- Enhanced security – extended cylinder wall helps protect against water ingress and tampering.
- Seamless coordination – available with matching window handles for a consistent look.
