

REVISION HISTORY			
Revision	Description	Drawn	Date
A	Release	PW	17/10/18

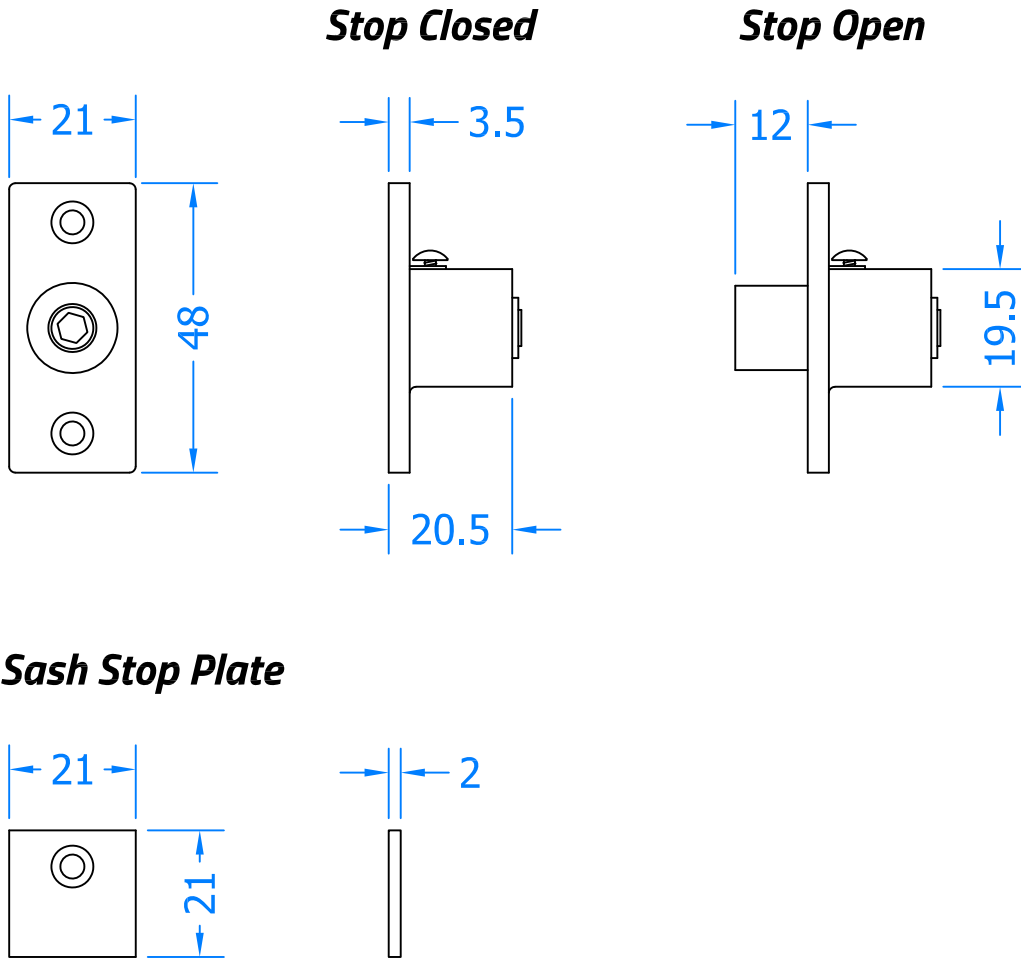

Installation Instructions

1. Recess the Sash Stop into the upper sash stile so the face of the stop is flush with the timber, position this like shown to the right, this would allow 50mm of travel in the sash before the stop would engage the stop plate, *alter this dimension accordingly.

2. Using the Key which is sold separately, unwind the stop, this will unwind to a maximum of 12mm.
