DEVENTER WEATHERSEAL
SOLUTIONS FROM COASTAL

COASTAL

Shaping the future.

HOW IMPORTANT IS WEATHERSEALING ON YOUR DOORS AND WINDOWS?

In two words - very important!

Homes with poor or no weathersealing can suffer from up to 30 - 40% overall heat and cooling loss through air leaks. That's a lot of wasted energy, loss of comfort and unnecessary expense.

Today's customer is looking for doors and windows which not only look good but feature excellent thermal and acoustic properties. The weatherseal you fit is therefore key to success and adds a lot of value to your doors and windows.

Fitting a quality weatherseal doesn't have to be time consuming or expensive and our unique range of weatherseal from Deventer brings you the following benefits:

- Quick and easy to fit saving you labour cost (especially when using the cutting tools)
- Resistant to water absorption, helping prevent timber from rotting
- Provides superior protection from wind, water and noise, enhancing the acoustic and thermal properties of your doors and windows

DEVENTER Profielen B.V.
has successfully achieved Cradle to Cradle Certified® Silver
for the product(s) under the name:
S, SV, SP, and SPV range
S/SV/SP/SPV range

Certification Number
5017

Standard Version
3.1

Lead Assessment Body
SGS Search Consultancy, a
division of SGS Search
Ingenieursbureau B.V.

Material Health
Assessment Body
ARCHE Consulting

Effective Date
25 October 2021

Expiration Date
27 July 2023

DEVENTER - World's 1st Weatherseal Manufacturer to achieve Cradle to Cradle Certification.

The 'S/SV/SP/SPV' ranges of weatherseal are environmentally friendly and fully recyclable.

Improve your company's 'green credentials' by fitting this weatherseal range to your doors and windows.

WHY DOOR & WINDOW MANUFACTURERS FIT THE DEVENTER WEATHERSEAL

- Rigid back edge makes it quicker and easier to fit, prevents stretching and ensures no 'wavy effect' once installed
- Resistant to water absorption helping prevent your timber doors and windows from rotting
- Increases the acoustic and thermal properties of your door or window protecting from wind, water and noise
- Excellent working temperature range of -40 C to +120 C
- Low compression required thanks to the closed micro-cell foam core on SP & SPV range
- High quality material compatible with resin and acrylic paint
- UV, Ozone and Smoke resistant TPE material
- Cradle to Cradle certified ensuring S/SV/SP & SPV seals are environmentally friendly and fully recyclable
- SPV124 has a protective film to keep clean during manufacture and installation

These handheld frame and sash cutting tools for our range of weatherseals ensure an accurate cut and speed up the fitting of the seals in both the frame and the sash. No more 'measuring twice', cutting once!

Brings you many unique features and benefits such as:

- Enables accurate cutting of your weatherseal, eliminating waste
- Quick and easy method of cutting and installing your weatherseal, saving you production time
- Improves the aesthetics and performance of your window by creating perfectly mitred joints, reducing air and weather permeability

FRAME WEATHERSEAL CUTTING TOOL

PART NUMBER	PRODUCT DESCRIPTION	FINISH	UNITS
WCT-FRAME-KIT	Frame seal cutting tool & extended stop	RD	Each

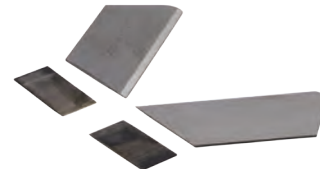

- This kit includes the frame cutting tool along with the extended stop required when fitting into stormproof and flush casement style window frames

FRAME WEATHERSEAL CUTTING TOOL REPLACEMENT BLADES

PART NUMBER	PRODUCT DESCRIPTION	FINISH	UNITS
WCT-BLADES-FRAME	2 Replacement frame blades	GR	Pk of 2

- Set of two replacement blades for the WCT-FRAME-KIT Frame Weatherseal Cutting Tool shown above

SASH WEATHERSEAL CUTTING TOOL

PART NUMBER	PRODUCT DESCRIPTION	FINISH	UNITS
WCT-SASH	Sash seal cutting tool	RD	Each

- This tool will create a reverse mitre to allow you to fit your sash weatehrseal quickly, easily and accurately

SASH WEATHERSEAL CUTTING TOOL REPLACEMENT BLADES

PART NUMBER	PRODUCT DESCRIPTION	FINISH	UNITS
WCT-BLADES-SASH	2 Replacement frame blades	GR	Pk of 2

- Set of two replacement blades for the WCT-SASH Weatherseal Cutting Tool shown above

WEATHERSEAL TROLLEY

PART NUMBER	PRODUCT DESCRIPTION	FINISH	UNITS
DEV-WST-B	Trolley for weatherseal coils	BK	Each

- Weatherseal trolley is designed to hold the Deventer Weatherseal reels and keep your workshop tidy
- Rotating centre wheel enables quick and easy dispensing of your weatherseal
- A portable trolley on wheels with a foot brake means you can quickly deploy it at whichever workbench you are working at
- Designed with a hood to help prevent your seal from being covered in dust and dirt
- The weatherseal trolley is compatible with the following weatherseals; SPV18, SPV15, SPV124, SPV12, SP7018, SP7015, SP103A, SP63, SPV6009, SP5717, S6003, SP333, S5109, if in doubt please contact the office
- Note: Weatherseal is not included as part of this purchase

Shaping the future.
