

# OUTWARD OPENING FLUSHBOLTS

Product Code: FB190

LIT-DC-FB190

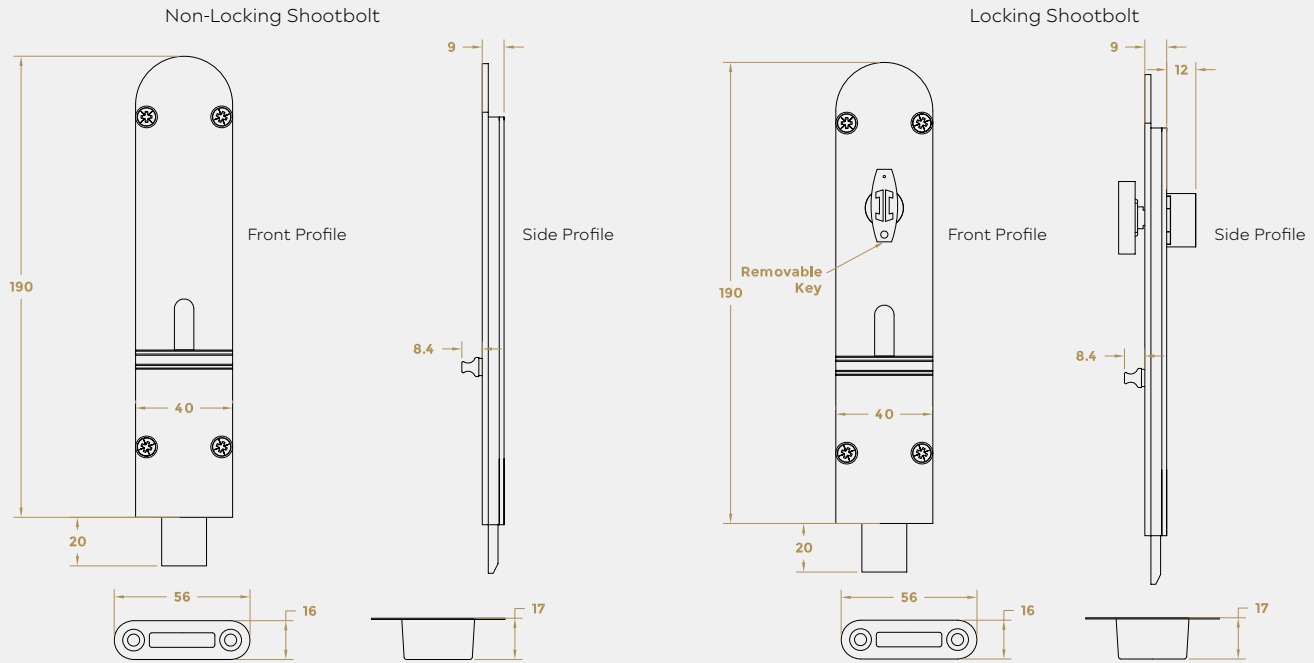

## Door Hardware Range

- Flat bar design flush bolt for outward opening folding door systems
- Can also be used on other door applications
- Bolt is morticed into face of door sash
- Locking and non-locking versions available (we recommend using locking version on the bottom of the door and non-locking on the top)
- New flat head key on locking version to reduce potential door damage
- Manufactured from brass
- Supplied with keep and pocket
