

BLU™

316 Marine Grade Stainless Steel Hardware
HQ4 Butt Hinge

INSPIRATIONS GALLERY AND TESTIMONIALS

COASTAL

Shaping the future.

"Feel better and look better than the previous hinges we used, they cost more, but you get what you pay for and these are better quality"

"You're our chosen ironmongery supplier who we've worked with over the last 10 years - a great team to work with."

Nathan McCarter Joinery

"Just used these on some
monster garage doors 🚪
absolutely A1 🙌"

"It came naturally for us to offer Coastal's BLU HQ4 Hinge. The HQ4 is an excellent, high quality 316 stainless steel hinge making it very suitable for coastal areas - which is where our client was located."

"As a company we use these a lot for all our doors. They are a great hinge, very high quality."

"Before standardising on these hinges, we used to use a hinge from another company and constantly had issues with them tarnishing. This caused a lot of snagging issues, which as we all know are expensive to fix. Since we moved to these BLU HQ4 hinges we've never had any issues at all."

Joinery For All Seasons

"The BLU HQ4 Hinge are our hinge of choice due to their high quality look and performance. They are built to last and mean we no longer have the problems of customers coming back to us 3 - 4 years later saying the hinge has fallen to pieces with the constant opening and closing of the door. These hinges have taken our product to another level."

R & E Falkingham

"Used the HQ4 recently on door sets 2.4m high x 2.6m wide and the central set were a whopping 4.2m high, with each door weighing 160kg! A good tribute to the HQ4 hinges."

Smith & Chambers

HQ4 Hinge Benefits

- Won't rust or corrode even in harsh environments or acidic timber - all components made from high quality 316 Marine Grade Stainless Steel
- Won't leak oil or grease - the self-lubricating phosphor bronze washers mean there is no oil required
- Won't collapse and make your door drop - components are CNC precision engineered to provide a smooth friction operation
- Successfully used on PAS24 tests without the need of a hinge dogbolt - due to the integral strength of the hinge
- Guaranteed to last for the lifetime of the door
