

ZYTEC COATED WOODSCREWS (ZINC)

Product Code: FX-RHF-ZY

LIT-DC-FX-RHF-ZY

Timber Joinery Woodscrews Range

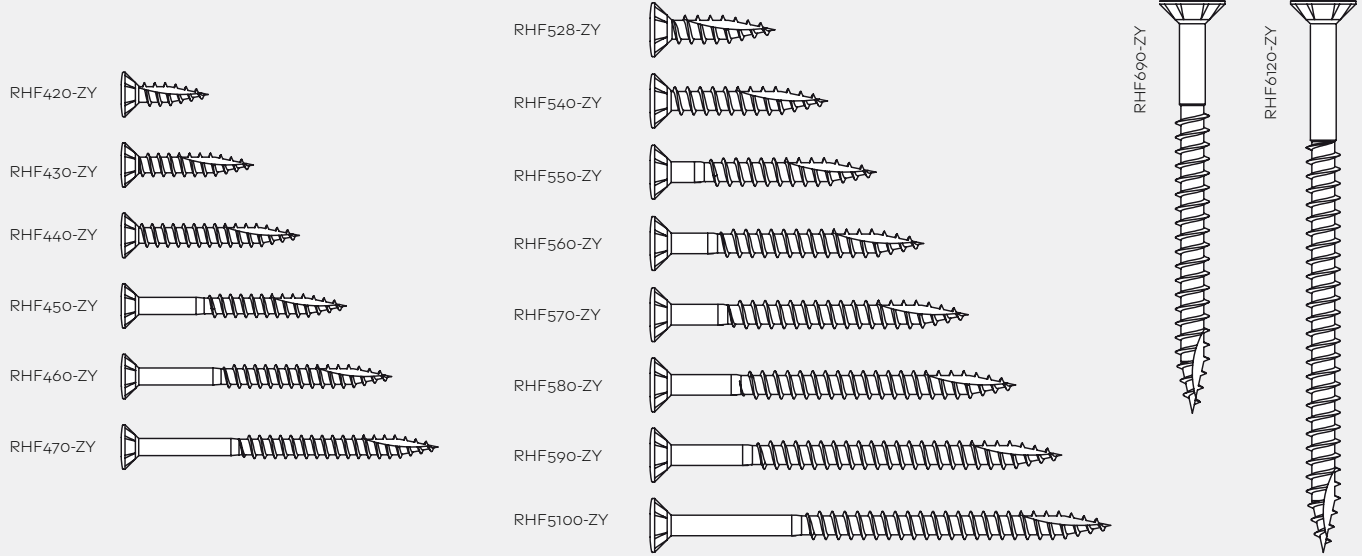

- Red Horse ZYTEC Coated woodscrews are the best timber joinery woodscrews on the market today
- Zytec coating provides the strength of a cold forged screw with Class 3 corrosion resistance
- Successfully used on our Part Q Tests
- Slight bevel on screw head creates a clean, neat look even if screw not in straight
- The unique 'Headlock' of the Red Horse screw ensures a 'locked tight' fit and brakes the screw during fastening to prevent head snapping off
- Speed up production lines with the innovative thread cut and 'spoon point' tip of these screws providing instant bite and helping prevent wood from splitting
- 90 Degree angle of countersunk head reduces chances of stripping the head
- Torx drive head suitable for manual and automated production lines
