

ISO-BLOCO ONE JOINT SEALING TAPE

Product Code: BL

LIT-DC-BL

- ISO-Bloco One is a high performance joint sealing foam tape to quickly and effectively install and seal windows
- Enables windows to be installed from inside the building during the construction phase without the need for expensive external access systems
- Can be applied in any weather
- The self-adhesive expanding tape provides you with a 3-in-1 multi-function 'fit and forget' solution
- The external seal area provides weather resistance and breathability
- The intermediate seal area provides extra thermal and acoustic properties
- The internal seal provides air tightness and humidity regulation
- Impermeable to driving rain even at a minimum pressure of 1,000 Pa
- Internal air tight seal ensures less than 0.1 cubic metres of air loss even when tested at 1,000 Pa pressure difference
- Provides a U-value of 0.55 and reduces sound by 63 dB
- Suitable for passive energy houses and complies with EnEV requirements and the RAL window installation principles
