COASTAL

Shaping the future.

WHY CHOOSE THE MACO TRICOAT EVO HARDWARE?

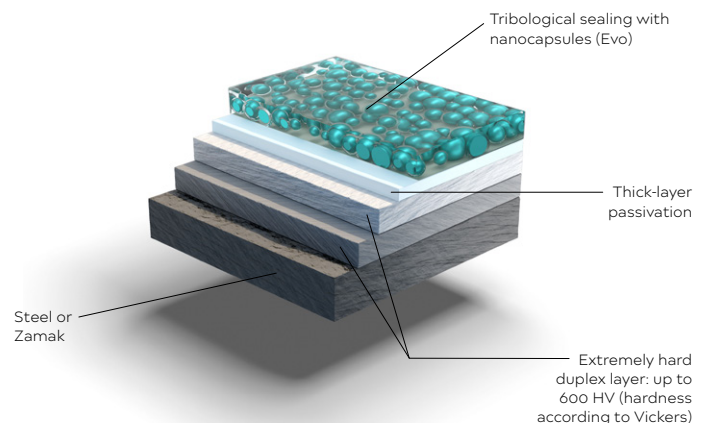

The Revolutionary MACO Tricoat Evo window espagnolettes and keeps have been specially developed to provide the ultimate in enhanced corrosion protection.

Fitting MACO TRICOAT EVO hardware brings you many benefits:

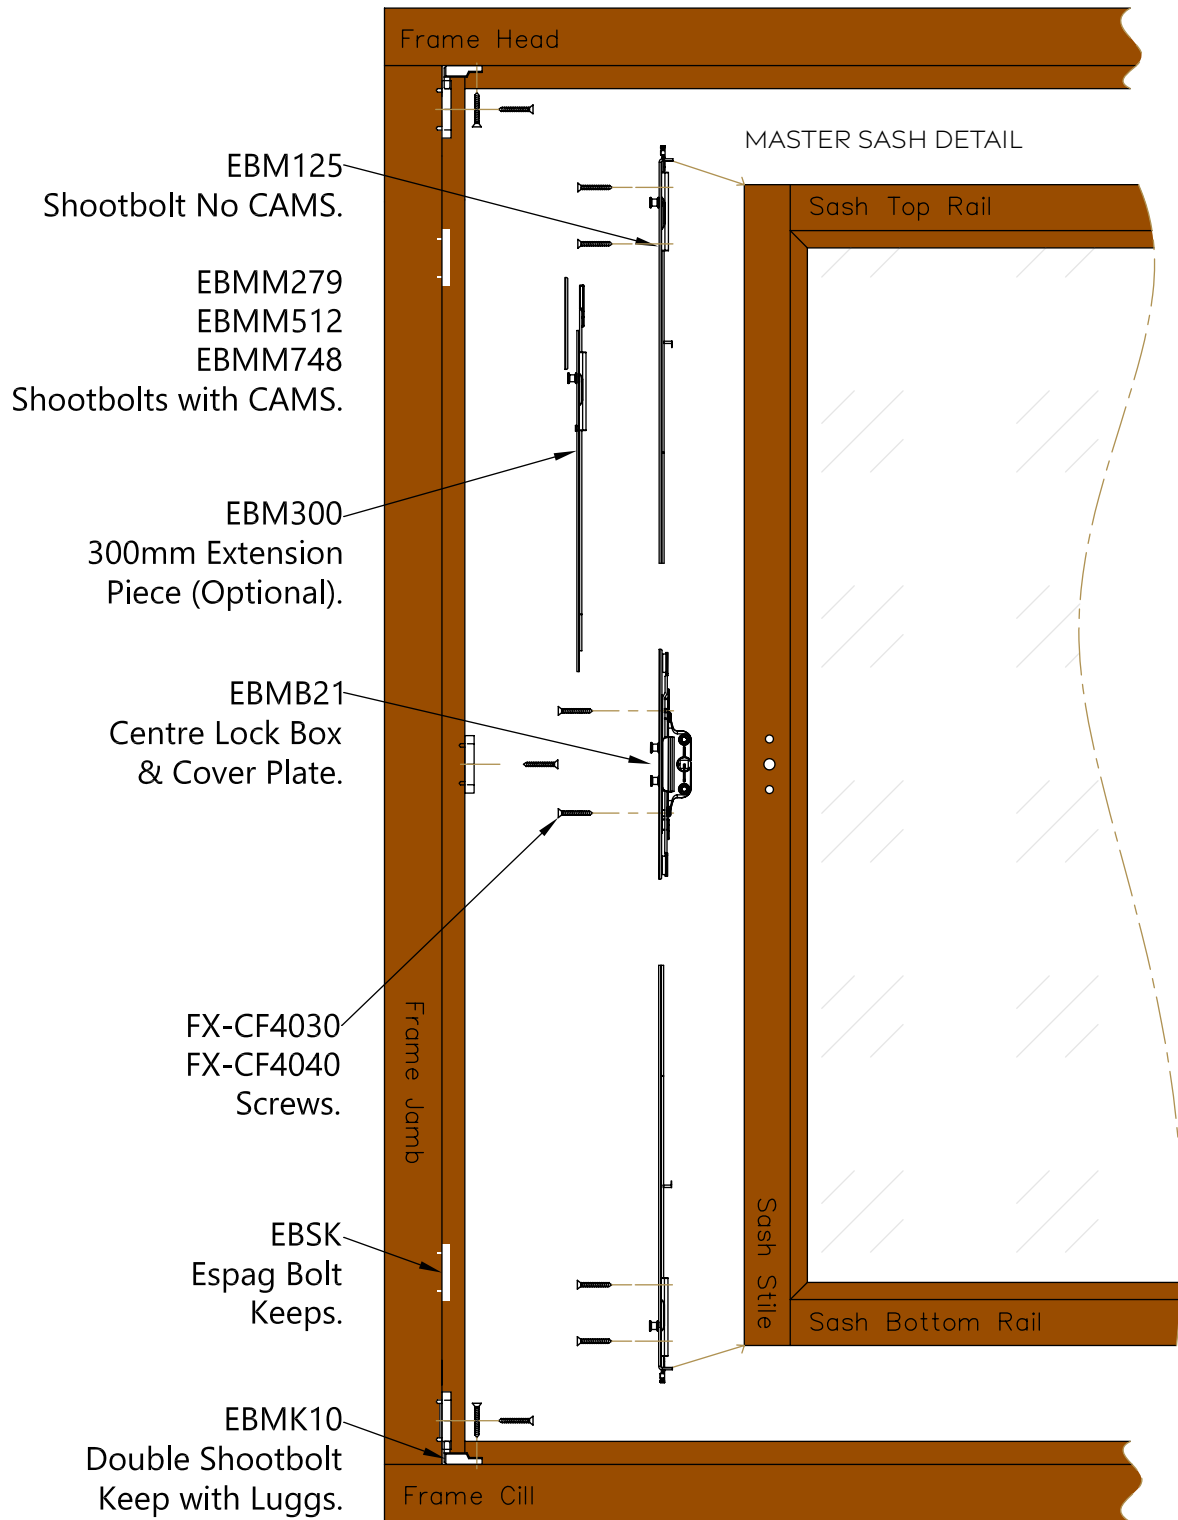

- ✓ More than twice exceeds Class 5 Corrosion Resistance Standards BS EN 1670:2007
- ✓ 15 Year Surface Guarantee, 10 Year Guarantee when fitted to acidic timber such as Accoya® and Oak
- ✓ Matt finish provides a premium look and feel
- ✓ Tested and proven durability in accordance with salt spray test EN ISO 9227
- ✓ Extremely resistant to scratching, repelling water and dirt
- ✓ Durable and self-healing coating which means the performance of the surface finish is maintained throughout the lifetime of the hardware
- ✓ Reduces the risk of potential call-backs from homeowners
- ✓ Suitable for use:
 - On or near the coast
 - Areas of high pollution such as in large cities
 - Acidic timber such as Accoya® and Oak
 - Materials with potential contact corrosion such as Aluminium
 - Buildings still undergoing construction phase with high dust or vapour content

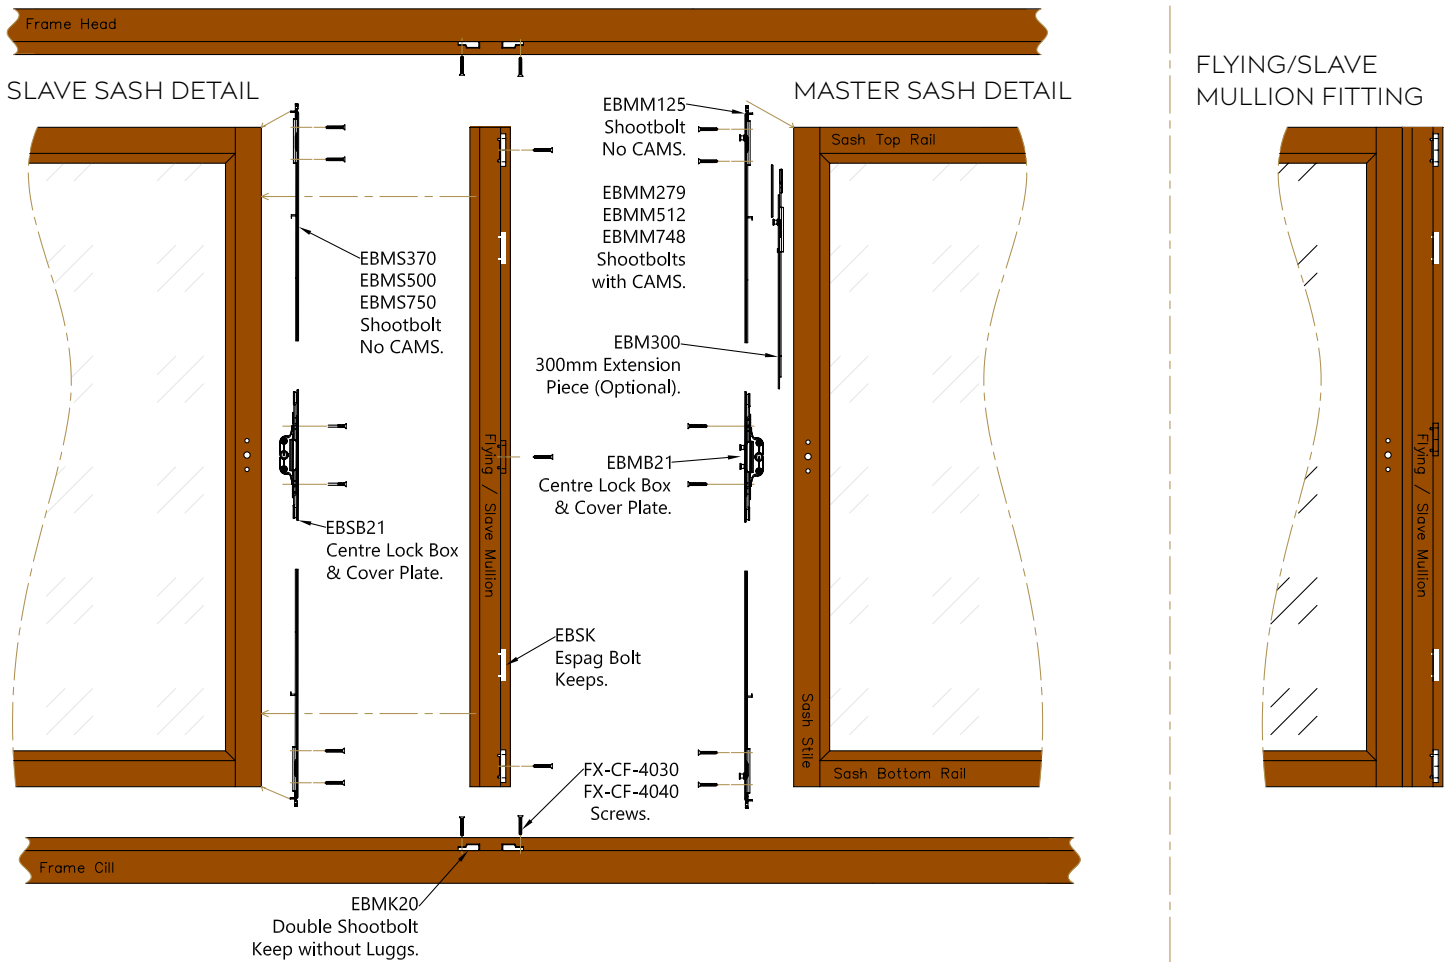

4 LAYER PROTECTIVE COATING

SINGLE CASEMENT WINDOW CONFIGURATION

DOUBLE CASEMENT WINDOW WITH FLYING/SLAVE MULLION CONFIGURATION

Standard features include a 9mm mushroom cam, 21mm backset and a 16mm faceplate.

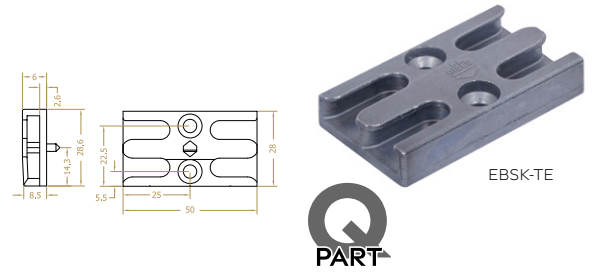

For additional security it throws top and bottom shootbolts as well as the cams. Quick and easy to assemble with minimum of components.

Finished in MACO TRICOAT EVO protective coating making it ideal for use in areas of high corrosion such as in coastal areas or in acidic timber.

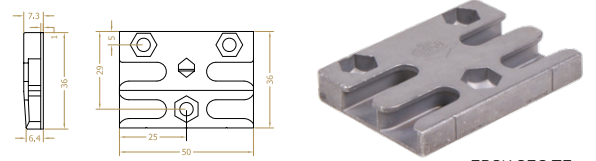

KEEPS FOR EBM SHOOTBOLT SYSTEM

PART NUMBER	PRODUCT DESCRIPTION	FINISH	UNITS
EBSK-TE	Standard night vent keep	TE	Each
